----------	----------------	-------------	--------------------	----------	------	---------------	----------------	-------------------	----------------	------------------	--------

Woody: Tree-Ornamental	Cercis canadensis 'Flame Thrower'	Eastern Redbud	Spring to Fall	Sun to Partial Shade	15' x 15'	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
------------------------	-----------------------------------	----------------	----------------	----------------------	-----------	-------------------------------------	-------------------------------------	-------------------------------------	--------------------------	--------------------------	-------------------------------------

Redbuds are loved for their small dark pink flowers that cover the branches in early spring. Like other redbuds, the leaves of 'Flame Thrower' are heart shaped. The young foliage emerges a rich burgandy red, gradually turn beautiful shades of orange, yellow and green as they age. The color mix persists from spring through fall. The early blooms of redbuds attract returning hummingbirds as well as early pollinators. Redbuds make good cut flowers and the blooms are edible and can be used in salads. Full sun will encourage the best flower production. Redbud prefers well-drained soils with consistant moisture.

Woody: Tree-Ornamental	Cercis canadensis 'Merlot'	Eastern Redbud	Spring to Fall	Sun to Partial Shade	10-12' x 12'	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
------------------------	----------------------------	----------------	----------------	----------------------	--------------	-------------------------------------	-------------------------------------	-------------------------------------	--------------------------	-------------------------------------	-------------------------------------

Early small bright pink flowers cover the branches of redbud trees before the foliage emerges, creating a dramatic display that lasts for 2 - 3 weeks. The small heart-shaped leaves of 'Merlot' are wine red and hold their color through the season with no summer heat stress. Reaching only 10 to 12 feet tall, 'Merlot' is a perfect candidate for smaller gardens. It features an upright, dense, vase-shaped habit. The early spring flowers are enjoyed by hummingbirds. It is important to noted that 'Merlot' is more tolerant of heat and drought conditions. Performs best in well-drained soils in sun or partial shade. Best flowering occurs in full sun.

Woody: Shrub	Aesculus pavia	Red Buckeye	Spring	Sun to Partial Shade	10-20'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------	----------------	-------------	--------	----------------------	--------	--------------------------	-------------------------------------	--------------------------	--------------------------	--------------------------	--------------------------

Red buckeye is a deciduous clump-forming shrub or small tree with an irregular rounded crown. It typically grows 10-20' tall. Showy, erect, 4-10" long panicles of red to orange-red, narrow-tubular flowers appear in spring. Palmately compound, shiny, dark green leaves are attractive in spring and early summer, but usually begin to decline by August. Smooth, light brown, globular (1-2" diameter) seed capsules encase 1-3 shiny seeds called buckeyes that ripen in the fall. Seeds are poisonous and are avoided by most wildlife. Flowers are attractive to ruby-throated hummingbirds. Prefers moist, fertile soils. Foliage tends to scorch and generally depreciate in dry conditions. Foliage appreciates some afternoon shade in hot summer climates.

Woody: Shrub	Viburnum dentatum 'Synnestvedt' Chicago Lustre®	Arrowwood Viburnum	Summer	Sun to Partial Shade	8' x 8'	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------	---	--------------------	--------	----------------------	---------	-------------------------------------	-------------------------------------	--------------------------	--------------------------	--------------------------	-------------------------------------

An outstanding Viburnum, this selection has an upright-rounded habit and glossy dark green foliage. Creamy white flowers appear in mid to late June, followed by an ornamental cluster of blue-black fruit in autumn. Reddish purple or gold fall color and with a slightly later bloom than the species. Summer fruit attracts songbirds. An extremely durable and adaptable choice for hedging, screening and mass plantings. All V. dentatums need another cultivar for pollination to make copius fruit. Prefers acidic, moist soils. Adaptable to seashore conditions.

TypeDesc	Botanical Name	Common Name	Season of Interest	Exposure	Size	Attract Birds	Attract Hbirds	Attract Butterfly	Deer Resistant	Drought Tolerant	Native
Perennial: not Grass/Fern	Agastache 'Blue Fortune'	Hybrid Hyssop	Summer	Full Sun	23-32"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p>This hybrid selection of Anise Hyssop is hardy and of compact habit. Longlasting blue flower spikes are covered with small tubular flowers. This is a great butterfly plant. Prefers a sunny, moist, well-drained site.</p>											
Perennial: not Grass/Fern	Amsonia hubrichtii	Bluestar	Early Summer	Partial Shade	28"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>This uncommon species features very finely textured foliage that just begs to be touched. Unusual steel-blue flowers bloom in June. The show really heats up with the incredible fall color as the leaves change to a striking fire yellow orange. This native plant is an excellent low maintenance perennial for moist, fertile soils.</p>											
Perennial: not Grass/Fern	Aquilegia canadensis	Wild Columbine	Spring	Sun to Partial Shade	24"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>This is an erect, branching perennial, up to 2' tall, well-known for its showy flowers. A nodding, red and yellow flower with upward spurred petals alternating with spreading, colored sepals and numerous yellow stamens hanging below the petals. The compound leaves are attractive in their own right. Easily grown in average well-drained soil in full sun to shade, it will tolerate a wide range of soils, as long as drainage is good. Soil that is too rich encourages weak stems and shorter lifespan. In optimum growing conditions it will self-seed freely. The small black seeds of Aquilegia canadensis are easy to collect and replant in the location of your choice.</p>											
Perennial: not Grass/Fern	Aquilegia canadensis 'Corbett'	Wild Columbine	Spring	Partial Shade	18 inches tall	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>This cultivar is a selection of our native columbine. It features clear yellow flowers that are carried delicately on thin wiry stems. It is somewhat more compact and tends to flower more heavily than the species. Like its parent, this plant is not as susceptible to leaf miner as other columbines. Easily grown in average well-drained soil in full sun to shade, it will tolerate a wide range of soils, as long as drainage is good. Soil that is too rich encourages weak stems and shorter lifespan.</p>											
Perennial: not Grass/Fern	Asclepias tuberosa	Butterfly Weed	Summer	Full Sun	18-24"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Butterfly weed is a tuberous rooted, native perennial which occurs in dry/rocky open woods, glades, prairies, fields and roadsides. It features clusters of bright orange to yellow-orange flowers atop upright to reclining, hairy stems with narrow, lance-shaped leaves. Flowers give way to prominent, spindle-shaped seed pods (3-6" long) which split open when ripe releasing numerous silky-tailed seeds for dispersal by the wind. Seed pods are valued in dried flower arrangements. Flowers are a nectar source for many butterflies and leaves are a food source for monarch butterfly larvae (caterpillars).</p>											

TypeDesc	Botanical Name	Common Name	Season of Interest	Exposure	Size	Attract Birds	Attract Hbirds	Attract Butterfly	Deer Resistant	Drought Tolerant	Native
Perennial: not Grass/Fern	<i>Cassia marilandica</i>	Maryland Senna	Mid Summer	Full Sun	4-6' x 2-4'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p><i>Cassia marilandica</i> is native to Eastern North America. It has compound yellow green pinnate leaves. Upright flower stalks display sprays of cup-like yellow blooms in dense clusters in mid to late summer. The native habitats for this shrubby perennial are open rocky woods, thickets, wet meadows and slopes and the base of bluffs. This easy plant tolerates damp soil with poor drainage. Remove faded flower heads.</p>											
Perennial: not Grass/Fern	<i>Chelone glabra</i>	White Turtlehead	Late Summer	Sun to Partial Shade	23-35" x 18-23"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p><i>Chelone glabra</i> is a native wildflower that forms an upright bushy mound of green foliage with upright stems of large, white hooded flowers. Foliage is narrow with 3-6" sharply toothed paired leaves. Prefers moist wet site, it is lovely at the waterside. Beautiful planted with the more common pink flowered <i>Chelone</i>.</p>											
Perennial: not Grass/Fern	<i>Dicentra eximia</i>	Dwarf Bleeding Heart	Summer	Partial Shade to Shade	10-18"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>The fernlike foliage grayish-blue in color provides a beautiful textural quality. Heart shaped blossoms dangle from 12-15" flower scapes throughout summer, with the heaviest bloom in early summer. Graceful specimen plant suitable for the shaded border, a woodland garden or a wildflower garden. Plants tolerate a range of exposures from full sun to shade, but are happiest in a partially shaded site with well drained soil that is rich in organic matter. <i>Dicentra eximia</i> will not tolerate wet soils in winter or dry soils in summer. It does not go dormant and die to the ground in summer as does <i>Dicentra spectabilis</i> (Common Bleeding Heart).</p>											
Perennial: not Grass/Fern	<i>Digitalis purpurea</i> f. <i>albiflora</i>	White Foxglove	Early Summer	Sun to Partial Shade	3-5'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p>This beautiful foxglove is an elegant biennial or short-lived perennial. Growing 3 to 5 feet, it features one-sided spikes of pendant, tubular, creamy white flowers with speckled throats. The basal rosettes of large oval pointed leaves offer bold texture in the garden while the upright flower spikes bring a vertical accent. Hummingbirds and butterflies are drawn to the flowers. If flower spikes are left at the end of the season, this plant may self-sow, creating ongoing populations for future displays. Performs best in average, medium moisture, well-drained soil. Humus rich soil is helpful.</p>											
Perennial: not Grass/Fern	<i>Filipendula purpurea</i> 'Elegans'	Meadowsweet	Early Summer	Sun to Partial Shade	24" x 36"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p>This meadowsweet has showy, large pale pink/white flower heads with red stems. It has attractive, large 6-pointed, maple-like leaves with similar, smaller leaves on the flower stems. Exceptionally beautiful. This <i>Filipendula</i> is fairly compact compared to the species. Use in the back of beds and borders or as a specimen plant. Tolerates average soil but with shortened bloom time. Prefers moist soil and does well as a waterside plant.</p>											

TypeDesc	Botanical Name	Common Name	Season of Interest	Exposure	Size	Attract Birds	Attract Hbirds	Attract Butterfly	Deer Resistant	Drought Tolerant	Native
Perennial: not Grass/Fern	Gillenia (Porteranthus) stipulata	Indian physic	Late Spring	Sun to Partial Shade	2-3'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Gillenia stipulata has palmately lobed, deeply veined and serrate leaves, red stems. Many 5-petaled star-shaped 1" white flowers appear on delicate narrow stalks at ends of branches. Will naturalize nicely along woodland edges and has wonderful fall leaf color. Grows in dry or moist soils.</p>											
Perennial: not Grass/Fern	Liatris pycnostachya Liatris pycnostachya	Prairie Blazing Star	Late Summer	Full Sun	36-48"	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Liatris pycnostachya is an iconic prairie flower with spectacular spikes of tightly bunch lavender flowers bloom form top to bottom. Blooms from August through September. It is perhaps the tallest Liatris in cultivation. Native to the central and southeastern of the USA, it is a popular pollinator plant, it attracts bees, butterflies, and hummingbirds and is a larval host plant for several moths. The small seeds are attract to songbirds. Prairie Blazing Star thrives in full sun and is tolerant of poor and clay soils as well as summer heat and humidity. It does not tolerate wet soils in winter.</p>											
Perennial: not Grass/Fern	Lobelia cardinalis	Cardinal Flower	Summer	Partial Shade	3-4'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Tall spikes of rich scarlet flowers that attract hummingbirds are borne in mid to late summer. Native to our streamsides or damp meadows, cardinal flower thrives in moist soils and will self-sow.</p>											
Perennial: not Grass/Fern	Monarda bradburiana	Eastern Beebalm	Spring to Summer	Sun to Partial Shade	2' x 3'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Eastern beebalm is a deciduous clump-former that doesn't take over the garden like many beebalms. It is mildew resistant and is the earliest beebalm to flower. Flowers are light pink and great for cutting. A member of the mint family, this native beebalm is very attractive to pollinators and occurs naturally in open and dry, rocky woods from Alabama to Texas, north to Iowa. In the garden, plant in sunny to partially sunny area.</p>											
Perennial: not Grass/Fern	Monarda fistulosa	Wild Bergamot	Summer	Sun to Partial Shade	2-5'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Wild Bergamot is a popular and showy perennial. Clusters of lavender, pink or white flowers, looking like ragged pompoms, bloom atop 2-5 ft., open-branched stems. This fragrant perennial, frequently cultivated, has aromatic leaves used to make mint tea. Oil from the leaves was formerly used to treat respiratory ailments. The leaves smell minty. Flowers are attractive to bees and butterflies. Best grown in dry to medium moisture, well-drained soils. Tolerates somewhat poor soils and some drought. Plants need good air circulation. Deadhead flowers to prolong summer bloom. Tends to self-seed.</p>											

TypeDesc	Botanical Name	Common Name	Season of Interest	Exposure	Size	Attract Birds	Attract Hbirds	Attract Butterfly	Deer Resistant	Drought Tolerant	Native
Perennial: not Grass/Fern	Monarda 'Gardenview Scarlet'	Hybrid Beebalm	Summer	Partial Shade	36"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>'Gardenview Scarlet' features tubular, two-lipped, rose red flowers borne in dense, globular, terminal heads atop square stems rising to 3' tall. Leaves light green, mildew resistant, and aromatic foliage. Toothed, aromatic leaves can be used for tea and in salads. The leaves of monarda are what give earl gray tea its unique flavor. Attractive to hummingbirds, butterflies and bees, particularly when massed. Most hybrids are of Monarda didyma parentage and are easily grown in average, medium to wet, moisture retentive soils in full sun to part shade.</p>											
Perennial: not Grass/Fern	Monarda 'Judith's Fancy Fuschia'	Beebalm	Mid Summer	Sun to Partial Shade	3-4'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Beebalm is a popular native plant for both ornamental and pollinator gardens. 'Judith's Fancy Fuschia' is a tall cultivar with vibrant, purplish red flowers that resemble playful jester's hats. Blooms over an extended period of 3 to 4 weeks. 'Judith's Fancy Fuschia' was ranked among the top performers in Mt. Cuba Center's plant trials for its abundant floral display, sturdy upright stems, and excellent powdery mildew resistance. Best grown in rich, moist, well-drained soil in full sun. Plants tolerate part sun, clay soil, and some drought once established. Spreads via rhizomes.</p>											
Perennial: not Grass/Fern	Nepeta x faassenii (racemosa) 'Cat's Meow'	Hybrid Catmint	Spring to Summer	Sun to Partial Shade	20' x 18'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<p>It is the 'Cat's Meow', for this catmint produces abundant purple blue spike blooms from late spring into summer. This perennial does not flop like most catmints. It only gets wider and broader as the season progresses. Fragrant when bruised. Responds well to shearing which will also promote rebloom. Plants are sterile and will not self seed. Companion plants: ornamental onions, peonies and daylilies</p>											
Perennial: not Grass/Fern	Penstemon digitalis	Beard-tongue	Early Summer	Full Sun	3-5' x 2'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Beard-tongue is a most attractive wildflower producing elegant clusters of pure white or pink-tinted flowers that bloom for a month or longer beginning in early summer. Rigid stems arise from basal rosettes of attractive foliage. Penstemon prefers well-drained loam and sandy soils; however, it will tolerate clay. Mass in sunny borders, wild gardens, native plant gardens or naturalized areas. Attracts a variety of pollinators. Great in flower arrangements.</p>											
Perennial: not Grass/Fern	Penstemon digitalis 'Blackbeard'	Beard-tongue	Late Spring	Full Sun	24-36"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>The dramatic dark purple stems and leaves of this Penstemon offer a strong contrast to the upright spikes of lilac purple flowers. Flowers are followed by attractive burgundy seed pods that provide extended seasonal interest. A favorite of hummingbirds as well as other pollinators. Penstemons are very drought tolerant. They grow best in full sun in an area with average to fertile soil with good drainage.</p>											

TypeDesc	Botanical Name	Common Name	Season of Interest	Exposure	Size	Attract Birds	Attract Hbirds	Attract Butterfly	Deer Resistant	Drought Tolerant	Native
Perennial: not Grass/Fern	Penstemon digitalis 'Mystica'	Beard-tongue	Year Round	Full Sun	28-32"	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>The Penstemon 'Mystic', is a new Penstemon, similar to 'Husker Red'. This Penstemon has light lavender-pink blooms. It should be planted in full sun to light shade in a well drained area. 'Mystic' is an all year bloomer that starts with bronze rosettes of foliage in early spring then produces numerous bronze stems over a long period in early summer. With a plant height of 28-32", 'Mystic' is more elegant than other Penstemon in its family. A major attractor to butterflies and hummingbirds. If you love Penstemon 'Husker Red', don't miss out on this variety.</p>											
Perennial: not Grass/Fern	Phlox divaricata 'Blue Moon'	Woodland Phlox	Spring	Partial Shade to Shade	12" x 18"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>'Blue Moon' woodland phlox is a low maintenance, early flowering, native ground cover. Flowers appear in May atop tall stems producing a tapestry of billowy light blue display. Best planted in woodland setting where there is ample spring moisture in rich humusy soil. Great companion for bleeding heart, trillium and heuchera.</p>											
Perennial: not Grass/Fern	Phlox paniculata 'Jeana'	Summer Phlox	Summer to Fall	Sun to Partial Shade	2-4' x 2-3'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>'Jeana' is an unusually mildew-resistant Phlox with sweetly fragrant lavender-pink flowers clusters. It blooms for an extended period from summer into fall. It thrives in organic, moist to average soil in full sun to light shade. Plants in shade will have smaller flowers and weaker stems. Tolerant of drought once established. Benefits from occasional fertilization. Deadhead to prolong blooming season. Garden phlox is a staple of the perennial border. Good for cut flowers. Regardless of flower color, it is attractive to hummingbirds and a host of pollinators. Black walnut tolerant.</p>											
Perennial: not Grass/Fern	Physostegia virginiana	Obedient Plant	Summer	Sun to Partial Shade	2-4'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Physostegia virginiana is a rhizomatous herbaceous perennial producing clumps of stiff, squared stems 2-4 ft tall. Tubular, two-lipped, snapdragon-like, pink to pale lilac flowers in upright terminal spikes bloom throughout summer (late June-September) atop square stems. Flowers bloom bottom to top on each spike, with each flower being subtended by a small leaf-like bract. It is considered a good plant for adding late-season flowers to a garden. Fertile soils produce robust growth and wide spreading, and the plant may require staking. Easily grown in average, moist, acidic, well-drained soils in full sun. Stems tend to flop in rich soils, too much shade or hot summer temperatures. Taller plants may need staking. Tolerates wet soils and some part shade.</p>											

TypeDesc	Botanical Name	Common Name	Season of Interest	Exposure	Size	Attract Birds	Attract Hbirds	Attract Butterfly	Deer Resistant	Drought Tolerant	Native
Perennial: not Grass/Fern	Salvia pachyphylla	Rose Sage	Summer	Full Sun	24-36"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>Salvia pachyphylla features striking spikes of intense bluish/purple flowers surrounded by rosey pink bracts that bloom throughout the summer. It is an evergreen shrub producing slightly cupped silvery grey, aromatic foliage. It is attractive to butterflies, hummingbirds, and a variety of bees. Native to the mountains and high desert of California, Nevada, and Arizona, this is a great plant for dry landscapes. Requires well-drained soil. Best in full sun but will tolerate light shade.</p>											
Perennial: not Grass/Fern	Sanguisorba officinalis	Great Burnet	Late Spring	Full Sun	24-36"	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<p>The dark purple, oblong catkin-like flowers of Sanguisorba officinalis are held on wiry stems above clumps of leaves that are divided into three leaflets. Often used as a culinary herb, both the young leaves and flowers, appearing in late spring, taste similar to cucumber and are excellent in salads and soups. Easily grown in average, medium, well-drained soil in full sun. Self-seeds freely. Prompt removal of spent flowers will prevent unwanted seedlings.</p>											
Perennial: not Grass/Fern	Verbena bonariensis	Tall Verbena	Summer	Sun to Partial Shade	2-4'	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p>This self-seeding tender perennial will reach about 3' in our area. The lance-shaped leaves are borne at the base of the plant and topped by erect, branching stems with 2" wide clusters of 1/4" wide purple flowers from midsummer to fall. Attracts butterflies and hummingbirds to your garden. Use in beds, borders and containers. Best in full sun with average, well-drained soil that is evenly moist.</p>											
Perennial: not Grass/Fern	Vernonia angustifolia 'Plum Peachy'	Narrow-leaf Ironweed	Late Summer	Full Sun	48"	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<p>This southeast native perennial boasts large clusters of dark purple flowers on robust 4' tall stems late summer. The narrow green leaves are tinted with purple and contribute fine texture to the flower garden. 'Plum Peachy' was selected for its strong stems that resist lodging. It attracts beneficial insects, pollinators, butterflies, and hummingbirds. Performs best in full sun in soils that are consistently moist.</p>
